

MAKEMATTRESS

2026 OFFICIAL B2B EXPORT CATALOG

All-In-One Mattress Components & Consolidated Container Logistics

Eliminating Minimum Order Quantity (MOQ) Barriers for Bedding Manufacturers Worldwide

CORE ADVANTAGES:

- ALL IN ONE HAND: 10+ component categories consolidated into a single mixed container.
- ZERO MOQ BARRIERS: Order exact production amounts per SKU without heavy factory minimums.
- IN-HOUSE QA DEPARTMENT: 10+ years pedigree with certified pre-shipment batch testing.
- DIRECT EXPORT: Kayseri manufacturing capital to over 35 countries across 4 continents.

THE MAKEMATTRESS CONSOLIDATION PHILOSOPHY

Why Fragmented Procurement is Costing Your Factory Thousands

In conventional mattress production, a manufacturer must coordinate with 10 to 15 different factories: tape weavers, film extruders, chemical formulators, needle-punching mills, spring fabricators, and label printers. Each supplier demands large container Minimum Order Quantities (MOQs), binding working capital for months.

MakeMattress was founded in Kayseri, Turkey's industrial epicenter for furniture and bedding, to solve this. We act as your unified B2B sourcing partner, bundling all essential raw materials and hardware into single mixed-load 20ft or 40ft HQ containers with transparent, unified invoicing and single-point customs dispatch.

1. ALL IN ONE HAND

Single supplier, single invoice, unified customs clearance. No more managing 15 separate foreign vendors.

2. ZERO MOQ BARRIER

Mix 10+ different products in a single container. Order exact production requirements per component.

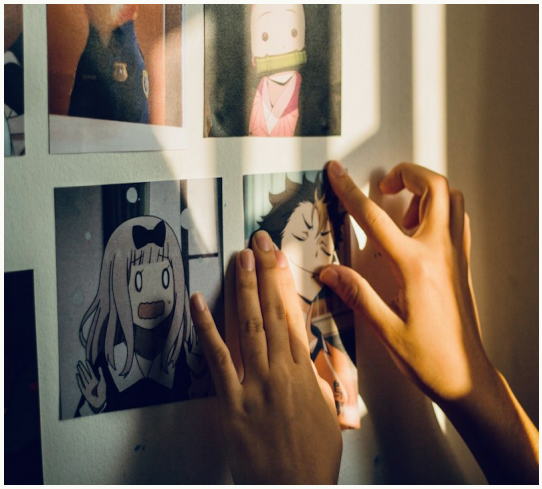

3. IN-HOUSE QC LAB

10+ years export pedigree with pre-shipment tensile testing, adhesive viscosity checks, and photo reporting.

4. DIRECT PORT EXPORT

Door-to-port intermodal freight from central Anatolia to Europe, Americas, Middle East, and Africa.

TAPES, BINDING RIBBONS & PACKAGING FILMS

Mattress Tape & Binding Ribbon

Category: Tapes & Accessories

Technical Specifications:

- Material: 100% High-Tenacity Polyester (PES)
- Standard Widths: 28mm, 35mm, 38mm, 42mm
- Roll Length: 150m continuous rolls on heavy cores
- Weaving Types: Jacquard, Herringbone, Plain Ribbed
- Customization: Brand name & custom color weaving

Consolidation: Available in 20ft / 40ft HQ Mixed Containers

PE Packaging Films & Shrink Bags

Category: Packaging Materials

Technical Specifications:

- Material: 100% Virgin LDPE / LLDPE multi-layer co-extrusion
- Thickness Range: 40 to 180 microns (heavy gauge)
- Formats: Centerfolded film, gusseted tubing, flat sheets
- UV & Anti-Static: High clarity with slip additives
- Roll Width: Up to 2600mm for compression roll-packing

Consolidation: Available in 20ft / 40ft HQ Mixed Containers

FELT PADS, NONWOVEN TEXTILES & FOAM CHEMICALS

Thermobonded Hardened Felts

Category: Felts & Fibers

Technical Specifications:

- Composition: Recycled cotton, synthetic fibers, thermobond resin
- Weight Options: 600 gsm up to 1500 gsm hard pad
- Standard Sizes: 90x190cm, 140x200cm, 160x200cm, 180x200cm
- Roll or Sheet: Supplied in flat sheets or continuous rolls
- Function: Pocket spring isolator and firmness reinforcement

Consolidation: Available in 20ft / 40ft HQ Mixed Containers

Polyurethane Chemicals (Polyol & TDI)

Category: Raw Materials & Chemicals

Technical Specifications:

- Products: Polyether Polyols, Toluene Diisocyanate (TDI 80/20)
- Packaging: 210 kg steel drums or 1000 kg IBC containers
- Application: Slabstock conventional and high-resilience foam
- Quality Control: Verified hydroxyl value and moisture content

Consolidation: Available in 20ft / 40ft HQ Mixed Containers

HOTMELT ADHESIVES & ASSEMBLED MATTRESS COVERS

Industrial Hotmelt Adhesives

Category: Adhesives & Glues

Technical Specifications:

- Chemistry: EVA, Polyolefin and PSA Hotmelts
- Viscosity: 2,500 - 6,000 mPa.s at 160°C application temp
- Open Time: Medium to Long open time for line positioning
- Packaging: 20 kg silicone-lined export boxes
- Eco-Standard: Odorless, zero solvents, non-toxic

Consolidation: Available in 20ft / 40ft HQ Mixed Containers

Zippered Quilted Mattress Covers

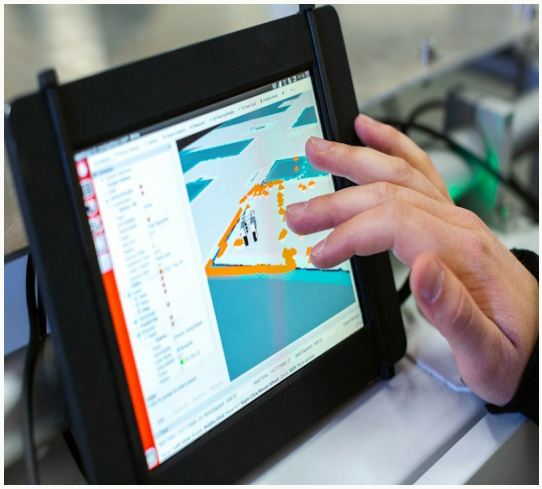

Category: Covers & Quilting

Technical Specifications:

- Fabrics: Knitted jacquard, double jersey, bamboo, cooling fibers
- Zippers: 3-sided or 4-sided separable heavy-duty nylon zippers
- Quilting: 200 gsm - 400 gsm fiberfill quilted backing
- Washing: Removable and machine washable at 40°C

Consolidation: Available in 20ft / 40ft HQ Mixed Containers

STAPLES, HARDWARE & REINFORCED PACKAGING

Pneumatic Staples & Hog Rings

Category: Hardware & Wire

Technical Specifications:

- Series: 80 Series, 140 Series, C-Rings, Hog Rings
- Wire Finish: High-tensile galvanized steel wire
- Box Packaging: 10,000 pcs per box / master export cartons
- Tool Compatibility: Compatible with Bostitch, Bea, Fasco

Consolidation: Available in 20ft / 40ft HQ Mixed Containers

Corrugated Edge Protectors & Boards

Category: Packaging Protection

Technical Specifications:

- Profiles: L-shaped corner guards and U-profile edge board
- Wall Thickness: 3mm, 4mm, 5mm multi-ply kraft paper
- Lengths: Custom cut from 100mm to 2400mm
- Function: Eliminates strap crushing and maritime impact

Consolidation: Available in 20ft / 40ft HQ Mixed Containers

LABELS, ACCESSORIES & FINISHED PRODUCTS

Woven Damask Labels & Handles

Category: Labels & Accessories

Technical Specifications:

- Weave: High-density damask weaving with satin borders
- Cut & Fold: Ultrasonic center-fold or end-fold
- Mattress Handles: Embroidered woven handles with brass eyelets
- Air Vents: Plastic and brass mesh ventilators

Consolidation: Available in 20ft / 40ft HQ Mixed Containers

Ergonomic Pillows & Bed Bases

Category: Finished Products

Technical Specifications:

- Fillings: Visco memory foam, shredded latex, micro-gel fiber
- Outer Covers: Breathable bamboo and Tencel jacquard
- Bed Bases: Knock-down steel frame bases optimized for containers
- Shipping: Flat-packed to maximize container cube utilization

Consolidation: Available in 20ft / 40ft HQ Mixed Containers

MIXED CONTAINER LOAD PLANNING GUIDE

How to Maximize Volume (CBM) & Weight (Payload) Efficiency

20 FT STANDARD CONTAINER

- Internal Volume: ~33.2 CBM
- Max Payload: ~21,500 kg
- *Best For: Heavy rolls (PE Film, Felts, Chemical Drums)*

40 FT HIGH CUBE CONTAINER

- Internal Volume: ~76.2 CBM
- Max Payload: ~26,000 kg
- *Best For: High volume items (Tapes, Covers, Pillows)*

SAMPLE 40FT HQ MIXED CONTAINER MANIFEST:

Component Description	Sample Quantity	Volume	Weight
Mattress Jacquard Tapes	400 rolls (60,000m)	12 CBM	1,800 kg
PE Heavy Packaging Film	80 rolls	18 CBM	6,400 kg
Thermobonded Hardened Felts	3,000 sheets	22 CBM	7,500 kg
EVA / PSA Hotmelt Adhesives	120 boxes	6 CBM	2,400 kg
Pneumatic Staples & Hog Rings	150 master boxes	4 CBM	1,950 kg
Zippered Mattress Covers	800 pieces	11 CBM	1,200 kg
Cardboard Edge Protectors	2,500 pieces	3 CBM	900 kg
TOTAL CONSOLIDATED 40FT HQ LOAD:		**76.0 CBM (99% cube)**	**22,150 kg**

MAKEMATTRESS
